ABOUT ME

I am Muhammad Saeed, a skilled software engineer with a Bachelor's degree in Software Engineering. As a Full Stack Developer, I specialize in web development using Python Django, Django REST framework, and Wagtail CMS, with a strong background in PHP, React, and over three years of experience working with WordPress. My expertise also includes machine learning, and data analysis, developed through projects on Fiverr.

I have a proven track record in managing software projects and hosting diverse applications, including e-commerce platforms and AI solutions. My experience includes deploying projects on AWS, PythonAnywhere, Heroku, and GitHub. Passionate about innovation, I stay updated with the latest technologies to deliver high-quality solutions that exceed client expectations.
